CRITICOMM Requirement

24 Oct 1962

Mesg. from DIRNSA → JCS, J-6

"This Agency has an urgent CRITICOMM requirement for a duplex circuit between NSA and [redacted] This circuit should be engineered for 61.1 band modulation rate, polar signalling at the NSA terminal and neutral at [redacted] terminal. Target date is ASAP and upon customer advice." \*

\*(C) DIRNSA Mesg. AGO # 10139/24, DTG 241810Z
